

MAGNETIC DESTONER

1. Available in roll sizes ranging from 450mm to 1500mm.
2. Strength: 10000 guss (+/- 10% on roll).
3. Drive: ½ HP and 1 HP, 3 Phase, 440 V, 1440 RPM, 50 Hz.
4. Belt: PTTE coated abrasion resistance belt.
5. Control Panel for variable speed drive (Optional).
6. Body: Total enclose by sheets.

Benefits of Magnetic Destoner

1. Low power consumption.
2. Increases life of rubber rolls.
3. Increases life of polishing rolls.
4. It offers high production capacity.
5. Easily separate black stones from semolina.
6. De stoner is used to differentiate metal piceces, mud bulls and other impurities from the grain.
